

SUREWAY
Harnessing The Power Of Nature

Calsica

Ca – 19%, SiO₂ – 28%

Reg No. B5719 of Act 36 of 1947

NATURAL RESISTANCE TO BIOTIC AND ABIOTIC STRESS

Discover the key to resistant plants

Calsica is an agronomically advanced, micronized calcium silicate granule that stimulates biological activity with soil contact. By utilizing the various benefits of silica, Calsica offers a simple and effective solution to improve the health and productivity of crops

- Latest agronomic technology
- Simple application with a granular formulation
- Eco friendly
- Natural manufacturing processes
- Design using biological catalysts
- Premium quality
- Use in the Sureway program for best results

SUREWAY
Harnessing The Power Of Nature

CalSica

Ca – 19%, SiO₂ – 28%

Reg No. B5719 of Act 36 of 1947

FIELD OBSERVATIONS

Increased photosynthetic rate

Increased yield and more even size distribution

Resistance to insects

Resistance to environmental stresses (abiotic stress) e.g. frost & drought

Resistance to brackish conditions
