

# CalCharge - Foliar MetaboCal - Soil

## NATURAL CALCIUM & PROTEINS FOR HEALTHIER, STRONGER PLANTS

Unlock remarkable improvements in overall plant and root health with this unique, natural source of Calcium & Protein

CalCharge & MetaboCal contain a unique, highly soluble form of Calcium and Protein. This powerful formulation is designed to improve root development, strengthen resistance to pests and diseases, promote optimal fruit development and increase overall plant health. With CalCharge & MetaboCal, your crops get the essential nutrients they need to thrive naturally.

- Promotes root development - healthy, strong root systems for better nutrient uptake and plant stability
- Resistance to pests and diseases - provides essential elements and proteins to strengthen the plant's natural defenses
- High Calcium content - contains 35% natural calcium which is essential for strong cell walls and growth
- Optimal fruit development - promotes better flower and fruit formation for higher quality yields
